## ROLE

Backend Developer

# SAMPLE PROJECT

## NAME APP

Mediverse Biofarma

## APP OVERVIEW

Mediverse is a super app in the health department. Inside the app, you can find numerous services including sickness prevention, healing, and health promotion. Mediverse users can take advantage of the app's features such as live chat, voice chat, or video call directly to a licensed professional. Mediverse also provides the functionality for users to purchase drugs, lab tests, search nearby clinic/hospital, as well as make doctor appointments.
